What?

What?

Meet the Developer

Alexandre Bonvin

University of Utrecht

The peripatetic Professor Bonvin trained in Lausanne, Utrecht (PhD), New Haven, and Zürich. Appointed Professor of Structural Biology in 2009, he has served as vice head of Chemistry. Alexandre is a leader of WeNMR, a European effort to simplify NMR data processing through web-accessible GUIs. He served as a resident genius for the 2017 NMRbox Genius Bar at ENC, and is a member of the NMR Golf Underground.

HADDOCK

High Ambiguity Driven biomolecular DOCKing

What is

NMRbox

NMRbox is a resource for biomolecular NMR (Nuclear Magnetic Resonance) software. It provides tools for finding the software you need, documentation and tutorials for getting the most out of the software, and cloud-based virtual machines for executing the software.

NMRbox support

It's simple. Let's get started.

You can choose by category. Or you can view [all software](#).

Research problems

Metabolomics

Protein Dynamics

Protein Structure

Intrinsically Disordered Proteins

Software types

SA Spectrum Analysis

MM Molecular Modeling

RDC Residual Dipole Coupling

R Relaxation

CS Chemical Shift

SV Structure Visualization

A Assignment

Welcome to the

NMRbox Community

The NMRbox Community is your opportunity to: share your experience; ask questions; seek advice and guidance on the software; and learn about upcoming training opportunities.

Support

It's all about getting started from workflows, user guides, tutorials, and basic information about NMRbox. We're here to help you.

Forum

Find out what your colleagues are saying. Add your voice.

Blog

Find out what's going on in the world of biomolecular NMR. Checkout this month's featured Researcher. Keep current with the latest case studies and new software.

Events

Conferences, Meetings, Workshops, Podcasts. Our calendar will help you plan ahead.

Learn more about our

NMRbox team

Leadership

The leadership behind the NMRbox team is experienced and diverse. We are devoted to transforming the way NMR Community can access and use software tools.

Research

Without these colleagues NMRbox would be just an empty box.

Integral

These colleagues keep the NMRbox in motion. Updating, Integrating. Making our lives easier.

About

Our mission. Our Story. Our Difference.
