Why NMRbox

NMRbox is a cloud-based virtual machine loaded with NMR software. It's purpose is to share with you, researchers, students, faculty, and administrators in the industry to help you find the best applications for better communicating your process.
.

Let us help you in your search.

With over hundreds of options let us help you search for
the most appropriate application or applications.

RESEARCHproblems

META**BOLOMICS**
for interactive visualizati on and analysis of molecular structures and related data

PROTEIN**DYNAMICS**
for interactive visualizati on and analysis of molecular structures and related data

PROTEIN**STRUCTURE**
for interactive visualizati on and analysis of molecular structures and related data

INTRINSICALLY**DISORDER**
for interactive visualizati on and analysis of molecular structures and related data

SOFTWAREtypes

Sp **SPECTRAL**
for interactive visualizati on and analysis of molecular structures and

A **ASSIGNMENT**
for interactive visualizati on and analysis of molecular structures and

R **RELAXATION**
for interactive visualizati on and analysis of molecular structures and

Cs **CHEMICAL** SHIFT
for interactive visualizati on and analysis of molecular structures and

Mm **MOLECULAR** MODELING
for interactive visualizati on and analysis of molecular structures and

St **STRUCTURE**
for interactive visualizati on and analysis of molecular structures and

Rdp **REDIDUAL** DIPOLE COUPLING
for interactive visualizati on and analysis of molecular structures and
